+44 07521 521986 @ y.yu@napier.ac.uk
Edinburgh Napier University (Merchiston Campus), 10 Colinton Road, Edinburgh EH10 5DT

I am currently working as a Research Associate at Heriot-Watt University, focusing on Dialogue Systems, Multi-modal Interaction, Human-Robot Interaction. I am also working as an NLP software engineer at a conversational AI company (called Alana), applying state-of-the-art techniques to design and build task-oriented/social conversational systems for business clients.

My principal research interests lie in Human-Robot interaction through daily, spontaneous conversation in Natural Language, mainly focusing on Visual Language Grounding, for example, multi-modal learning/tutoring conversations. On the other hand, my interests also lie in a wide range of state-of-the-art technologies (e.g. neural network) to solve realistic problems, for example, incremental dialogue system, multi-party conversations and open-domain social conversations.

EDUCATIONAL EXPERIENCE

November 2014	Ph.D, HERIOT-WATT UNIVERSITY, UK
November 2018	Ph.D thesis : Optimising Strategies for Learning Visually-grounded Word Meanings Through Interaction <i>Spoken Dialog System</i> <i>Visual-Language Grounding</i> <i>Multi-modal Interaction</i> <i>Python</i> <i>Reinforcement Learning</i>
September 2012	MSc in Software Engineering, HERIOT-WATT UNIVERSITY, UK
November 2013	Grade : Distinction - GPA 77% Graduation Project : Siri 2 : Conversational Speech Interfaces on Mobile Devices <i>Spoken Dialog System</i> <i>VoiceXML</i> <i>JAVA</i> <i>Android</i> <i>Google Speech API</i>
September 2007	BSc in Computer Science and Technology, BEIJING INFORMATION SCIENCE & TECHNOLOGY UNIVERSITY, China
July 2011	Grade : 75% (1st Class) Graduation Project : Online Examination System using Pattern Recognition <i>C#</i> <i>MySQL</i> <i>Patter Recognition</i> <i>Miro-Service</i>

PROFESSIONAL EXPERIENCE

August 2021	Lecturer, EDINBURGH NAPIER UNIVERSITY, UK
Present	<i>Natural Language Processing</i> <i>Conversational AI</i> <i>Multi-modal Interaction</i> <i>Multi-party Interaction</i>
March 2020	Research Associate, HERIOT-WATT UNIVERSITY, UK
July 2021	Working as a member in the SPRING project : <ul style="list-style-type: none">> Leading the deliverable 5.1 to design and develop the initial conversational system that combines social and visual dialogue;> Exploring potential research directions and review the relevant literature;> Designing data collection and evaluations;> Designing and developing any new Neural Network models to solve the research problems (e.g. multi-user conversation and multimodal interaction)> Writing and submitting research papers on system results to academic conferences, workshops or journals> Contributing to the demonstration of conversational systems in the conference, workshops, and other public engagement events <i>Conversational AI</i> <i>Python</i> <i>Docker</i> <i>MongoDB</i> <i>Python</i> <i>Rasa</i> <i>Multi-modal Interaction</i> <i>Multi-party Interaction</i>
June 2020	NLP Researcher Software Engineer, ALANA, UK
July 2021	<ul style="list-style-type: none">> Developing the state-of-the-art conversational models for various projects;> Researching and designing new Machine/Deep Learning models for different practical problems (e.g. multi-user conversation, multimodal interaction and open-domain question-answering);> Helping design and implement software deployment pipeline and testing portals. <i>Conversational AI</i> <i>Docker</i> <i>MongoDB</i> <i>Python</i> <i>Java</i> <i>Multi-modal Interaction</i>

<p>May 2018 March 2020</p>	<p>Dialogue Modelling Scientist, VOYSIS LTD, UK Lead the research and development of conversational AI in the field of e-commerce, including : <ul style="list-style-type: none"> > Improving the existing dialogue system by applying state-of-the-art techniques in the domain; > Designing and developing the new machine/deep learning models to solve the practical problems encountered in the industrial environment; > Training colleagues on the knowledge of conversational AI; Participate in the employment recruitment in conventional agent : <ul style="list-style-type: none"> > Design the interview agenda and questions > Perform as interviewer for new possible employees > Lead the post-interview discussion (Apple has purchased Voysis in early 2020.)</p> <p>Conversational AI Docker MongoDB Python Java</p>
<p>October 2013 May 2018</p>	<p>Research Assistant Research Associate, HERIOT-WATT UNIVERSITY, UK Working on various EU projects. (e.g. the EU FP7 "Parlance", the EPSRC IAA "SpeechCity" and the EPSRC project "Babble") in collaboration with other PhD students, postdoctoral researchers and professors. <ul style="list-style-type: none"> > Developing conversational systems for different projects; > Designing the state-of-the-art machine/deep learning model to address the encountered problems in projects; > Designing data collection and evaluations; > Publishing research papers in various academic conferences; > Contribute to demonstration of conversational systems in the conferences, workshops, and other public engagement events; </p> <p>Conversational AI Python Python Android Multi-modal Interaction</p>
<p>January 2009 April 2009</p>	<p>Cisco Network Engineer (Internship), BEIJING HENGXIN YONGTAI TECHNOLOGY DEVELOPMENT CO., LTD., China <ul style="list-style-type: none"> > Assisted with designing and building the network topology diagram </p> <p>Cisco Network</p>
<p>Jun 2008 December 2008</p>	<p>C# Software Developer (Part-time), INSTITUTE OF GEOLOGY AND GEOPHYSICS, CHINESE ACADEMY OF SCIENCES, China <ul style="list-style-type: none"> > Implement several professional analysis software systems to process data in geophysical prospecting. </p> <p>C# MySQL</p>

TEACHING AND MENTORING EXPERIENCE

<p>January 2021 April 2021</p>	<p>Conversational Agent, HEIROT-WATT UNIVERSITY, UK Co-supervising student group projects in the course of Conversational Agent : <ul style="list-style-type: none"> > Student Group Project in "Visual Dialogue" : <ul style="list-style-type: none"> > Co-supervising with Dr. Christian Dondrup > 7 MSc students > Supervision meeting online (via TEAMS) once a week > Student Group Project in "Ice-breaker Multi-user Conversation" : <ul style="list-style-type: none"> > Co-supervising with Dr. Jose David Aguas Lopes > 8 MSc students > Supervision meeting online (via TEAMS) once a week > Submitted a demo paper to Conversational User interfaces (CUI) 2021 </p> <p>Conversational AI Rasa Multi-modal Conversation Multi-User Conversation</p>
<p>April 2016 August 2016</p>	<p>Graduation Project, HEIROT-WATT UNIVERSITY, UK Assisting and supervising a fourth-year student (Martin Ross) on using the Furhat robot</p> <p>Java Furhat Robot</p>

September 2015 December 2016	<p>Lab-helper for BSc and MSc courses, HEIROT-WATT UNIVERSITY, UK</p> <p>Help BSc and MSc students with understanding their laboratory tasks and technique support, including Software development 2 in 2015 and Software Engineering Foundation in 2016</p> <ul style="list-style-type: none"> > around 50 BSc and MSc students > Once a week <p>Java</p>
October 2019 November 2019	<p>Internal Training course on Conversational AI, VOYSIS LTD, UK</p> <p>Lead an internal Training course on Conversational AI (e.g. the classic architecture, state-of-the-art technique and evaluation metrics for Dialogue Management)</p> <ul style="list-style-type: none"> > All company technique employees (around 20 people) > Two weeks (one hour per week) <p>Dialogue System Python</p>
October 2010 December 2010	<p>Graduate Teaching Assistant, BEIJING INFORMATION SCIENCE & TECHNOLOGY UNIVERSITY, China</p> <p>Team-teaching of Software Engineering undergraduate course</p> <ul style="list-style-type: none"> > Both class and lab teaching responsibilities > Develop in-class activities > Lead the discussion section > Develop assignments > Around 30 2nd-year undergraduate students > Two hours per week <p>Java MySQL</p>

RESEARCH EXPERIENCE

March 2020 Present	<p>Member of the SPRING Project, HEIROT-WATT UNIVERSITY, EU H2020-ICT research and innovation action (RIA)</p> <p>Project Description : A three-year research project that design and build a conversational AI for human-robot interaction in healthcare</p> <ul style="list-style-type: none"> > Leading the Deliverable 5.1 in the project to design and build an initial social and visual conversational system and an initial high-level task planner <p>Achievement : published two conferences papers in HRI and submitted a demonstration paper at an international conference (ACL 2021)</p> <p>Conversational AI Multi-modal Conversation Multi-party conversation Deep Neural Network</p>
November 2017 May 2018	<p>Member of the Voysis Project, HEIROT-WATT UNIVERSITY, Industry-funded</p> <p>Project Description : An industry-driven research project aims at design and build an agenda-based user simulation and a conversational agent in the e-commerce domain.</p> <p>Achievement : The developed model/system have been employed in the final production systems and demonstrations for business clients.</p> <p>Conversational AI Python Reinforcement Learning</p>
January 2017 November 2017	<p>Member of the Amazon Challenge 2017, HEIROT-WATT UNIVERSITY, Industry-funded</p> <p>Project Description : A competition student project aims to design and build a social open-domain conversation agent, i.e. interacting and being evaluated with the general public.</p> <p>Award : Be selected to participate in the Amazon Alexa Challenge (note that there are only 12 teams selected out of more than 100 applicants) and finally be selected as one of the top three teams in the final competition in November 2017.</p> <p>Conversational AI Python Reinforcement Learning</p>

<p>April 2015 November 2017</p>	<p>Member & Ph.D of the Babble Project, HEIROT-WATT UNIVERSITY, EPSRC Website : Babble URL Project Description : A research project that aims to explore/design the foundations and impetus for the rapid development of naturally interactive conversational interfaces with deep language understanding in various of areas. Achievement : Built a modular interactive teachable system that addresses visual language grounding problem through natural, daily conversations.</p> <p> Conversational AI Incremental Natural Language Understanding Dynamic Syntax Type Theory with Records Visual Language Grounding Reinforcement Learning </p>
<p>March 2014 October 2014</p>	<p>Member of the SpeechCity Project, HEIROT-WATT UNIVERSITY, EPSRC Project Description : A research project that aims to build an adaptive spoken interaction for an intelligent city guide Award : Won the Culture and Sports Challenge in the EdinburghApps competition, 2014.</p> <p> Conversational AI Java Andriod Multi-task conversation </p>
<p>October 2013 February 2015</p>	<p>Member of the Parlance Project, HEIROT-WATT UNIVERSITY, FP7 EC-funded Project Description : A research project aims at designing and building a mobile application that approaches human performance in conversational interaction. Achievement : The developed mobile-based conversational application was published for the public in the Google Play app store.</p> <p> Conversational AI Java Andriod </p>

HONORS AND AWARDS

<p>November 2017</p>	<p>As the team member, our team is the only team from the UK to be chosen as one of three finalists in Amazon's Alexa Prize.</p>
<p>June 2017</p>	<p>The paper "Learning how to learn : an adaptive dialogue agent for incrementally learning visually grounded word meanings" won the Best Paper Award in the first ACL workshop of "Language Grounding for Robotics".</p>
<p>2014</p>	<p>Our SpeechCity mobile-based virtual tourism guider won the Culture and Sports Challenge in the EdinburghApps competition.</p>

SKILLS

Programming	Java (JEE, JSE, JME, Java Card Platform), Microsoft .Net (C#), Typescript, Javascript, CSS, Python
, Frameworks/Platform	Micro-service Framework, Docker, Jenkins
Database	IBM DB2, Oracle Database, Microsoft SQL Server, MySQL, MongoDB
Development Toolkit	IntelliJ Idea, Eclipse, Visual Studio Code, Maven, Ant, SVN, Git
Neural Network Platform	Tensorflow, Torch
Machine Learning Platform for NLP	Transformer, Rasa, PolyAI, AllenNLP, SpaCy, NLTK, CoreNLP

LANGUAGES

Mandarin 
 English 

INTERESTS

- > Magic,
- > Balls (Basket Ball, Football, Golf, Volley Ball and Squash),
- > Other Sports (Swimming, Hiking and Cycling, Fishing)
- > Reading Fictions
